Session 2 - Short Sequencing Skills

10.45am - 1.45pm. \$100. 8 spots available

This session is open to all levels. Two levels of sequences will be set and we will talk about handling options and what suits the dogs best.

Session 3 - Proofing Skills

Let's proof the dogs are listening to our verbals and handling. Again this is open to all levels and there will be an easy and hard version. Sometimes this is called opposite training so we are constantly testing the dogs are listening and not just choosing their own adventure!
